

EMERGENCY INSTRUCTIONS

INSTRUCTIONS TO THE GENERAL PUBLIC NEAR ENEMALTA'S DELIMARA POWER STATION

	ON HEARING THE SIRENS, YOU ARE TO FOLLOW THESE INSTRUCTIONS.	The "DANGER" siren is a pulsing (hi-lo) sound that will sound for at least one minute.
	Seek shelter by entering the nearest safe building.	Enter the closest secure building; this will screen you from any external danger, such as high temperatures resulting from explosion/fire. Staying indoors will reduce traffic congestion and will keep streets clear for rescue operations.
	Close doors and windows; turn off ventilation and other vents.	Close windows, doors and louvers to protect yourself from the possible entry of flying glass resulting from further explosions. Stay in a room farthest away from the incident preferably with an exit to the outside. Do not stay behind doors and windows leading to outside.
	Avoid unnecessary use of telephone and mobile.	Telephone lines must not be overloaded so that people in real danger can contact the rescue services. Use the telephone ONLY if you require assistance.
	Turn off any flames. Do not smoke.	Flammable gas may be in the air.
	Listen to the media.	The "ALL CLEAR" siren is a continuous tone sounding for at least 1 minute. The authorities will also give advice on PBS radio and television.
	Wait for the all-clear signal that indicates that the danger is over.	The "ALL CLEAR" siren is a continuous tone sounding for at least 1 minute. The authorities will also give advice on PBS radio and television.
